Step 5. Fix the door hinge #6, use a flathead screwdriver to open the 2 covers on the door hinge #6.

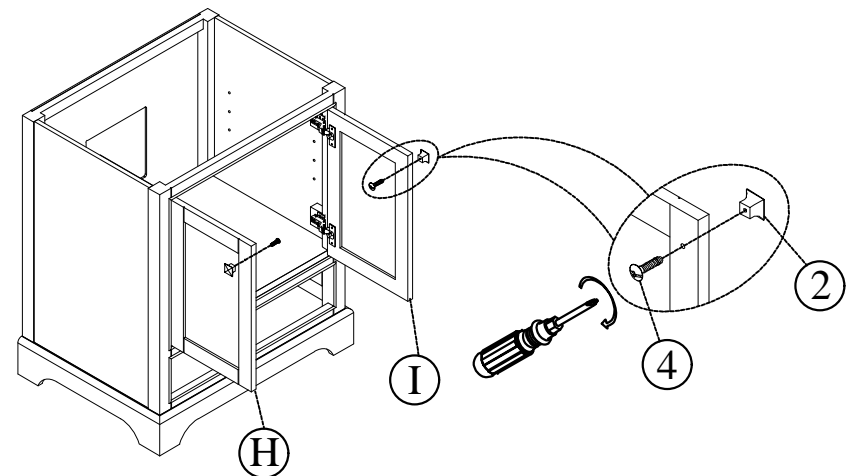

Step 6. Make sure screw holes on door hinge align with predrilled screw holes on backside of door panel, use philips head screw driver and screw #7 to attach door hinge #6 on backside of door panel H/I.

Step 7. Carefully hold the door H/I and make sure screw holes on door hinge base align with predrilled screw hole on inside of side panels, use philips head screw driver and screw #7 to attach door hinge #6 on inside of side panels. Adjust the screw on center portion of hinge slightly by loose or fasten screws to make sure even gap around door, and close the 2 covers on the door hinge #6.

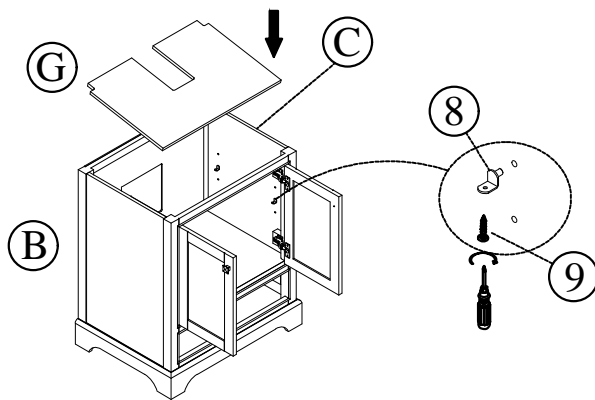

Step 8. Use philips head screw driver and screw #4 to attach knobs #2 to door panel H/I, fasten to secure.

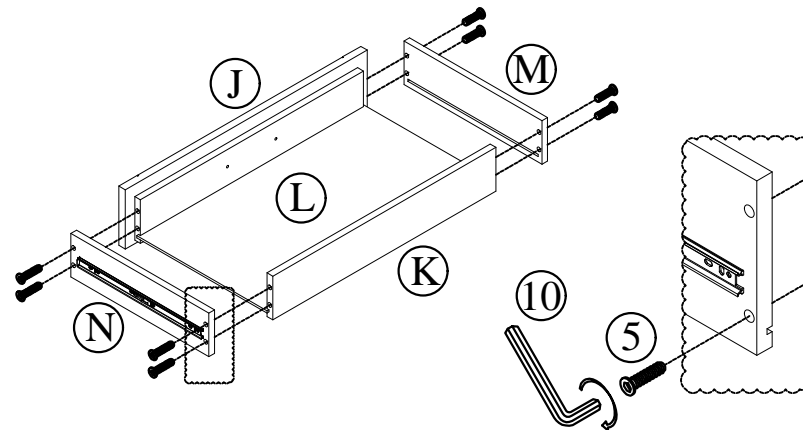

## VTYM0309 MIRELLA 30" SINGLE BATHROOM VANITY SET

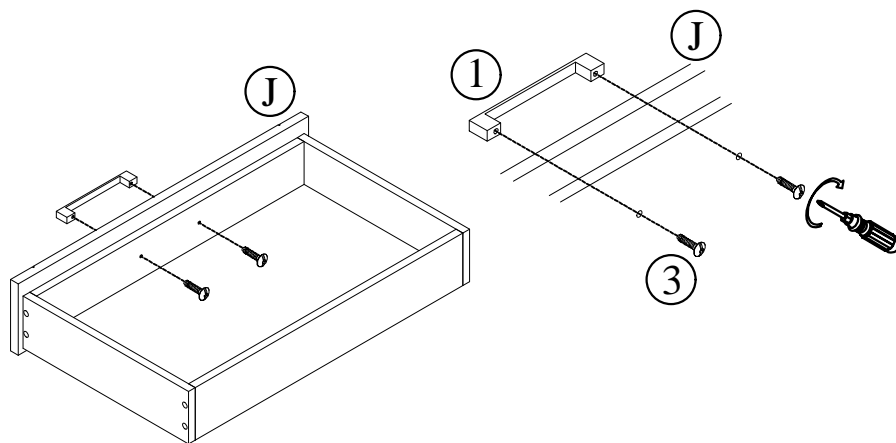

Step 9. Insert shelf support #8 to holes on inside of side panels and make sure all 4 shelf support on same level. Insert adjustable shelf G through top of the unit then use philips head screw driver and screw #9 to connect shelf and support.

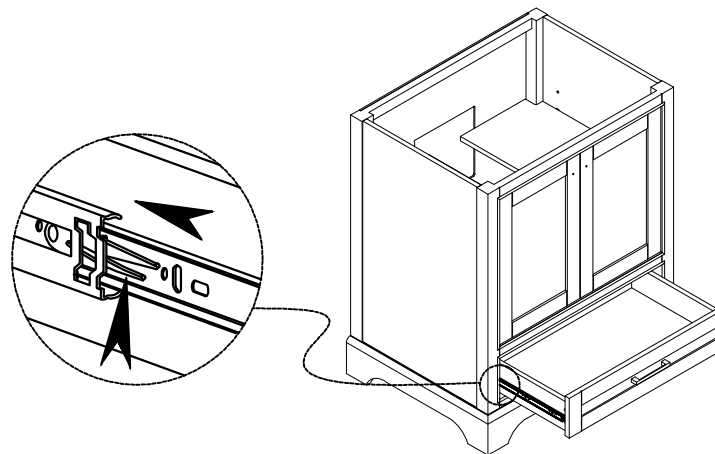

Step 10. Use bolt #5, allen key #10 to connect drawer side N with drawer front J and drawer back K, then insert drawer bottom L through lower channel on drawer front and back. Then use bolt #5, allen key #10 to connect drawer side M with drawer front J and drawer back K to complete the drawer box assembly.

Step 11. Use philips head screw driver and screw #3 to attach handle #1 on drawer fronts.

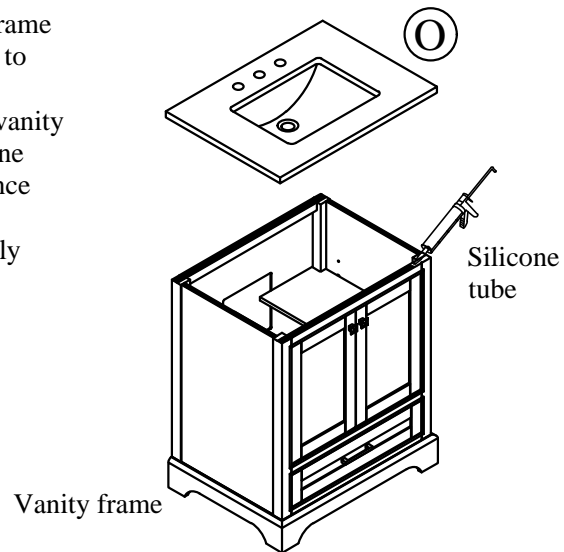

Step 12. Pull out the ball bearing slides and carefully align the slides on drawer box with slides pre-installed on side panel/partition panel then insert drawers. If the drawer fronts mis-align please loose the screw that holding drawers slides on outside of the drawer box and make proper adjustment then fasten these released screws.

## Step 13.

- Clean the top edges of the cabinet frame
- Apply sufficient amount of silicone to the top of the vanity frame.
- Place the stone top O on top of the vanity frame, align the back edge of the stone with the back of the vanity and balance the over hang of 2 sides.
- Wipe off excess silicone immediately and let it dry for 4 hours.

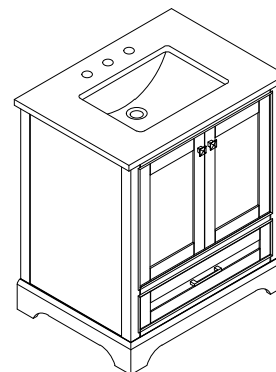

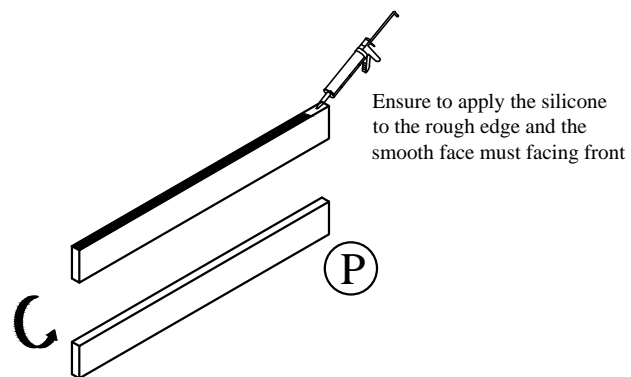

- Step 14. Place the vanity in the desired location. Ensure the vanity set leveled by slightly adjust the adjustable levelers. Install the faucet and all plumbing. Ensure there are no water leaks.

- Step 15. With the vanity in its location and all plumbing in place, apply a bead of silicone to the unpolished back side and bottom edge of the backsplash and secure it to the vanity. Wipe away any excess silicone immediately. Allow 24 hours to dry.

Assembly completed

24H
